

The following is provided in response to your inquiry fo LEED® information relative to the following product

PRODUCT		RECYCLED MATERIAL CONTENT		REGIONALLY MANUFACTURED AND/OR HARVESTED		
SERIES	SHAPE	M&R 4.1, 4.2 Pre-Consumer	M&R 4.1, 4.2 Post Consumer	Manufacturing Location	M&R 5.1 Mfg > 500 Miles from Project Site	M&R 5.2 % of raw material harvested within 500 miles of project
LYRA	ALL	9,1%	0%	Casalfiumanese (BO) Italy	Applicability and qualification will vary dependent upon job location within 500 miles of Casalfiumanese (BO) Italy	48%

Our fire tile products do not contain Volatile Organic Compounds (VOC) and there are no VOC emissions from any of our fired tile products.

None of raw material used to manufacture these products are classified as renewable.

Leonardo 1502 Ceramica has the following environmental certifications:

- ISO 14001:2004

The ISO 14000 family addresses "environmental management". This means what the organization does to: minimize harmful effects on the environment caused by its

activities, and to achieve continual improvement of its environmental performance.

- EMAS (Eco Management Audit Scheme)

The EU Eco-Management and Audit Scheme (EMAS) is a management tool for companies and other organisations to evaluate, report and improve their environmental performance

Every year we evaluate the environmental impacts of the factory plant and we create a public document "Environmental Declaration" (http://www.leonardo1502.it/mountpoint/Environmental_Declaration_2007.pdf) in which we explain every single results and we define the program to improve our environmental performance.
